## EDUCATION

**Master's degree in training of secondary professional and language teachers.**
University of Granada. October 2017 – June 2018

**Master's Degree in Computer Engineering**
University of Granada. October 2016 – September 2017

**Erasmus Computer Engineering. Hochschule Darmstadt, Germany.**
September 2013 – September 2014

**Bachelor in Computer Engineering.**
University of Granada. September 2010 – September 2016

## COURSES

- ➢ Udemy Course "Docker and Kubernetes: The Complete Guide". (22.5 hours). February 2022
- ➢ Intensive English Course (C1) at IML Granada. November-December 2021.
- ➢ Udemy Course "Angular 9 - From scratch to professional" (14.5 hours). March 2020.
- ➢ Course of Digital Technologies, Internet and learning 2.0. (50 hours). University of Granada. January 2013.

## COMPTUER SCIENCE SKILLS

- ➢ Operating systems: Windows, Linux.
- ➢ Web development: HTML, JavaScript, CSS, MySQL, ASP .NET (MVC, WPF, Webpages), Angular 9.
- ➢ Programming languages: C#.  Also, knowledge of Java, Python.
- ➢ Version Control: GitHub, Bitbucket, GitLab.
- ➢ Others: ElasticSearch with NEST(C#), Lucene, Mediawiki.

## LABORAL EXPERIENCE

- ➢ DOTNET Developer at Practice Evolve, Cork, Ireland. August 2019 - Present.
  - o Working with SCRUM process framework, either fixing bugs or developing new features for a Legal Management Software (Windows desktop and web application).
  - o Implementing DocuSign Integration.
  - o Developing Elastic Search system for a WPF application.
  - o Used technologies: .NET WPF, SQL, HTML, Angular, Elastic Search NEST.

- ➢ Associate Software Engineer at GlobalShares, Ireland. October 2018 – <u>August</u> 2019.
  - o Working with an agile methodology (SCRUM), with sprints, stories (problems or features) to solve/create and evaluate them with a score. I used Jira for tracking the solutions. I was developing new features for GlobalShares products, using .net, front-end technologies and SQL and fixing existing bugs in the web application solution.
  - o Profiling the software (using ANTS profiler and dotTrace) to try to improve the current performance, find possible bad recourses uses such as duplicated calls, unused ones, etc.
  - o Used technologies: .net MVC, SQL, JavaScript, HTML, ElasticSearch.

- ➢ Technical workforce of R+D+i support and management: Department of Computer Sciences and Artificial Intelligence of the University of Granada. Jun 2017-Jun 2018.
  - o Research Project "Recommender/filtering system" through an information retrieval system.
  - o Creating and adding information to the PubMed Collection, by using ORCID codes, Pubmed-ID, Cites and References, all of then consulted with Elsevier API.
  - o Used technologies: Java, Elsevier API, Lucene, and XML.
  - o Article published: https://dl.acm.org/citation.cfm?id=3230607&dl=ACM&coll=DL

- ➢ ÍCARO Internship program: 7 months at MADOC, Ministry of Defense. September 2016- March 2017.
  - o Maintaining, adapting, updating and developing on the military documentation platform, based on wiki technology through MediaWiki software (PHP).
  - o Developing and designing the corporate Project software "Web content search engine of the Defense Intranet" built-in .NET technology in C #.
  - o Used technologies: MediaWiki, C# .NET WebForms, ElasticSearch, Kibana, LINQ, HTML, Bootstrap, JavaScript, SQL.
  - o A part of that project was presented as Final Master's Degree Project, and the source code can be seen in the following link: https://github.com/cesar2/ElasticSearch-Intranet
